EDUCATION

Year	Degree/Certificate	Institute	CGPA/Percentage
2013-2027	B.Tech Computer Science	Maharaja Agrasen Institute Of Technology	9.05
2023	CBSE(XII)	Saarthi International School, New Delhi	87
2021	CBSE(X)	Goodley Public School, New Delhi	95

WORK EXPERIENCE

- **Summer Internship - Artificial Intelligence, Machine Learning Cybersecurity** *June 2025 - July 2025*
Intern
 - Built and evaluated **Machine Learning models in Python** with end-to-end workflows including data preprocessing, feature handling, training, validation, and performance analysis, focusing on deployable and production-relevant ML practices rather than academic prototypes.
 - Implemented **network security fundamentals and secure communication concepts**, covering encryption and threat detection basics, with hands-on configuration of **Telnet-based client-server networking using Cisco Packet Tracer**, including device configuration, authentication, and connectivity testing.
 - Delivered **research-driven ML work with direct industry relevance**, authoring a Quantum Machine Learning research paper analyzing hybrid quantum-classical algorithms and scalability challenges, while collaborating on **AI-driven cybersecurity tasks** and participating in expert-led technical sessions to strengthen applied security and ML integration skills.

PROJECTS

- **Habit Traker AI** *Aug 2025 – Oct 2025*
Website [GitHub](#)
 - Built a **full-stack AI-assisted habit tracking application** enabling users to log daily habits and visualize progress through an **interactive dashboard**.
 - Developed an **intelligent behavior breakdown engine** to analyze habit difficulty, identify behavioral trends, and generate **personalized, actionable insights**.
 - Implemented a **production-ready web architecture** using **Next.js, TypeScript, and Tailwind CSS**, with **authentication-protected routes, local-first data storage**, and optimized deployment on **Vercel**.
- **AI Resume Intelligence** *Nov 2025 - Dec 2025*
Website [GitHub](#)
 - Built a **production-ready AI-powered resume-job matching system** that evaluates resumes using **semantic embeddings and contextual weighting**, going beyond traditional keyword-based ATS scoring.
 - Implemented **section-aware semantic scoring** (projects, experience, skills) with **explainable skill-gap analysis**, enabling recruiters and candidates to understand **why matches succeed or fail**.
 - Designed an **interactive analytics pipeline** featuring **PCA-based visualization with conditional UMAP fallback, automatic skill clustering**, and **cached inference** for fast, repeatable analysis using **Streamlit, Sentence-Transformers, and Scikit-learn**.
- **Cold-Start Personalization Engine** *Dec 2025 -Jan 2026*
System Design Project [GitHub](#)
 - Built a **production-aware cold-start recommendation system** that infers user intent from a **single textual input** in the absence of historical interaction data.
 - Implemented **transformer-based semantic embeddings** with **density-based unsupervised clustering (OPTICS)** and a **hybrid fallback strategy** for high-noise scenarios.
 - Added **explainability and evaluation pipelines** using **cluster affinity scores, silhouette score, and cluster coverage**, with cached embeddings for **efficient repeated inference**.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, JavaScript, TypeScript C++ and MySQL
- **Technical Skills and Frameworks:** Jupyter, Visual Studio ,Figma ,Machine Learning Models, Natural Language Processing, Web Development, Flask, StreamLit, Data Structures and Algorithms, Dockers, ReactJs, Tailwind CSS, Git, Scikit-learn, Vercel, NodeJs, ExpressJs, SHAP, MongoDB.
- **Operating Systems:** Windows, Linux & Android

KEY COURSES TAKEN

- **CSE & Maths:** Introduction to C, Fundamentals of Computers, Object Oriented Paradigm in C++, Data Structures and Algorithms, Computer Organization & Architecture, Python Programming, Operating System, Database Management System, Statistical Methods, Discrete Mathematics, Numerical Methods, Computer Networks & Security, Software Engineering, Compiler Design, Computer Graphics & Multimedia

ADDITIONAL

- **Soft Skills:** Communication, Problem Solving, Leadership, Observation, Adaptability, Responsibility, Flexibility
